Dear Mr. Bradlee,

When documented charges of fraud, perjury and misrepresentation by the FBI are not considered newsworthy of course I have no reason to believe that the FBI's failure to make even pro forma denial to the courts is newsworhty, either.

So I send the enclosures for your file, in the event you've kept what I sent before.

This is all so utterly unreal that they've used the name of the USA for Boston as signatory to their Opposition!

But I take them at their word and address him as USA for the DC.

Of course I don't expect them to prosecute themselves.

But I've given them a better case than many they take to court.

Sincerely,

Harold Weisberg
